Professor Harry Johnson
Department of Economics
University of Chicago
Chicago 37, Illinois

Dear Harry:

It was good to see you and your wife again, and I enjoyed the chance to address your seminar. It was particularly satisfying to me to learn of Selwyn Becker's work, which tends to corroborate some of my conjectures experimentally.

The visit gave me enough energy to come back and finish my thesis, which I sent off to Harvard last week: "Risk, Ambiguity and Decision," 400 pages, mostly written since I saw you. After leaving Chicago, I spent three days arguing with Savage in Ann Arbor; I haven't converted him yet, but he hasn't yet read my thesis.

I hope I'll see you again before long.

Sincerely yours,

Daniel Ellsberg
Economics Department
